

Water Treatment on June 2, 2016

On June 2, 2016 PLM Lake and Land Management Corp. is scheduled to treat Cedar Lake for Milfoil and Curlyleaf with the chemicals Renovate 3 and Reward. The following restrictions apply for these chemicals in the treated areas:

Chemical product/active ingredient	Chemical trade name	Do Not Use this water for swimming or bathing until	Do Not Use this water for ornamentals or turf irrigation until	Do Not Use this water for domestic purposes or agriculture irrigation until	Do Not Use this water for livestock watering or similar purposes until
Triclopyr granular	Renovate OTF, Renovate OTF LZR	1 Day(s)	Site-specific recommendation* No restriction for established turf/grasses	120 Day(s) or until assay indicates 1ppb or less. N/A on domestic	See product label
Diquat Dibromide	Reward, Tribune	1 Day(s)	3 Day(s)	5 Day(s)	1 Day(s)

For a complete listing of all product labels, please see the [PLM website](#).

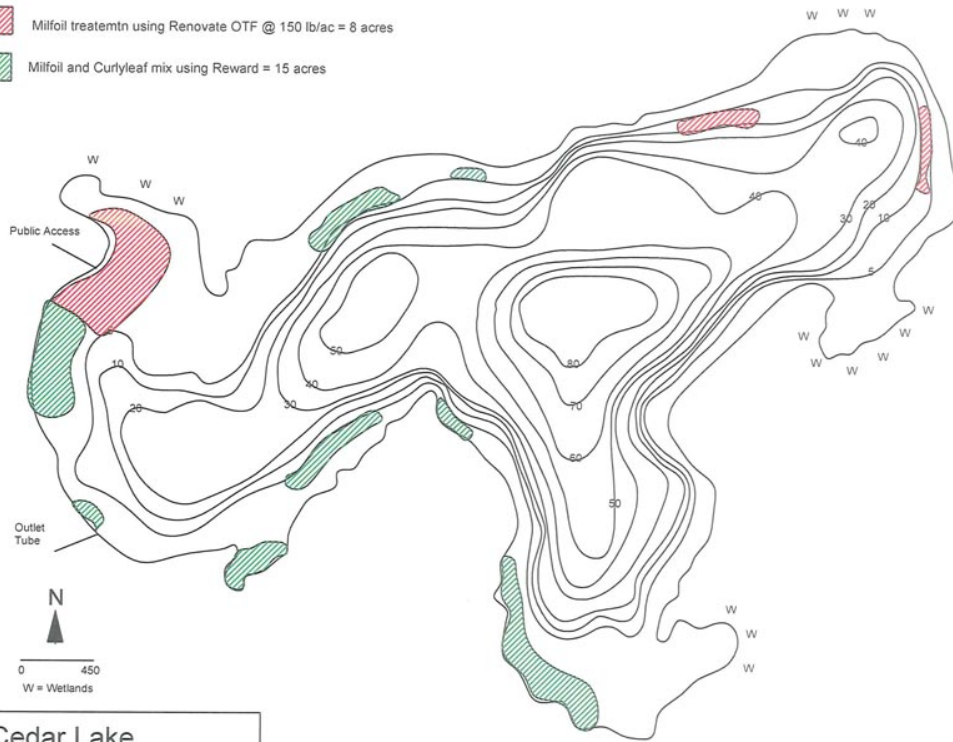

N/A = Not Applicable

*Site-Specific recommendations to limit ornamental irrigation with Renovate & Sculpin granular treated water will typically last 2-14 days. Contact PLM for further information.

The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Michigan Department of Agriculture. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

The areas of the lake that were treated are shown on the map below:

-  Milfoil treatment using Renovate OTF @ 150 lb/ac = 8 acres
-  Milfoil and Curlyleaf mix using Reward = 15 acres
